

## **INFORMATION ON THE COMPETITION**

Krakow, 13th March, 2019

**DEAN  
OF THE FACULTY OF PHYSICS, ASTRONOMY  
AND APPLIED COMPUTER SCIENCE**

Address: 11, Łojasiewicza street  
30-348 Kraków, Poland  
Phone no./fax: (+48) 12 664 4890

**RECTOR  
of the Jagiellonian University**  
announces competition for the post of  
**ASSISTANT RESEARCHER**  
in the Institute of Physics  
at the Faculty of Physics, Astronomy  
and Applied Computer Science

**within the scope of Polish National Agency for Academic Exchange (NAWA) Polish Returns  
project no. PPN/PPO/2018/1/00011/U/00001, *Principles of information decoding in developmental systems.***

For the post of adjunct professor may apply persons who fulfil requirements stated in Article 113, 116 (2) (4) of the Act of 20<sup>th</sup> July 2018 Law on higher education and science.

Development of multicellular organisms is a remarkably reproducible process. During development cells are exposed to chemical cues that determine cell fate with positional precision of a few cell diameters. How this reproducibility is achieved is a fundamental question in biology that is still poorly understood. The proposed project addresses this question by applying methods of theoretical physics to model specific biological systems. As a result, factors affecting information decoding in developmental systems will be identified. Identification of principles of information decoding in developmental systems, can have substantial impact in studies in a broad range of tissues and stem cell systems.

**Requirements:**

- 1) MSc in physics, mathematics, computer science or similar.
- 2) Successful application to PhD studies in Polish research institution or university.
- 3) Interest in the interdisciplinary aspect of the project.
- 4) Experience with numerical solvers (C++, Python, or Mathematica).
- 5) Proficiency in written and spoken English.
- 6) Experience in complex systems or biological networks will be an asset.

**Research tasks:**

- Proposing and analyzing models of developing tissue in the framework of theoretical physics.
- Making model predictions that can be verified experimentally in selected biological systems.
- Participation in overall scientific activity of the research group.

**Terms of employment:** Full time employment for initial 24 months with possible extension

**Starting date:** Summer 2019

**Salary:** 5 000 PLN before-tax per month

Applications (scientific CV, list of publications, one recommendation letter) should be submitted to Dr Marcin Zagórski via e-mail: [marcin.zagorski@uj.edu.pl](mailto:marcin.zagorski@uj.edu.pl) with annotation "assistant researcher" by **17th May 2019**.

**Competition starting date:** 15th April 2019

**Submission deadline:** 17th May 2019

Competition results will be announced by: 1st June 2019

Jagiellonian University does not provide housing.

**Statement forms can be downloaded on the website:**

<http://www.dso.uj.edu.pl/druki-do-pobrania/dokumenty-dla-kandydatow-pracownikow>

On the basis of authorization  
of the Rector of Jagiellonian University

Dean of the Faculty of Physics, Astronomy  
And Applied Computer Science
