

JOB OFFER

Position in the project:	PhD student
Scientific discipline:	Physics
Job type (employment contract/stipend):	Stipend
Number of job offers:	2
Remuneration/stipend amount/month (“X0 000 PLN of full remuneration cost, i.e. expected net salary at X 000 PLN”):	Full remuneration cost: 3800 PLN Expected net salary: 3800 PLN
Position starts on:	1 December 2019 – 1 February 2020 (flexible starting date)
Maximum period of contract/stipend agreement:	43 months
Institution:	Jagiellonian University
Project leader:	Prof. dr hab. Marek Kuś / Group leader: Dr Kamil Korzekwa
Project title:	<i>Near-term quantum computers, optimal implementations and applications</i> <i>Project is carried out within the TEAM-NET programme of the Foundation for Polish Science</i>
Project description:	<p>The broad aim of the newly established Quantum Resources Group is to develop a theoretical framework underpinning quantum technologies, with a particular focus on quantum computing and quantum thermodynamics.</p> <p>The main goals of the group are:</p> <ul style="list-style-type: none"> • Identifying resources responsible for quantum advantage over classical strategies in various information-theoretic and thermodynamic tasks. • Characterising allowed resource transformations in different regimes. • Finding optimal ways to experimentally implement protocols exhibiting quantum advantage, while taking into account realistic constraints. <p>These goals will be achieved within three research objectives:</p> <ol style="list-style-type: none"> 1. Development of a unified framework for classical simulations of quantum circuits. 2. Devising feasible thermodynamic protocols exhibiting quantum advantage. 3. Constructing operational scenarios within the resource theory of coherence. <p>Quantum Resources Group is established as a part of a larger project <i>Near-term quantum computers, optimal implementations and applications</i>. Within this project a network of four closely collaborating research groups, working on cutting-edge aspects of quantum technology, has been formed. The remaining three research groups focus on quantum computing, quantum machine learning and quantum error correction.</p>
Key responsibilities include:	<ol style="list-style-type: none"> 1. Gaining expertise in the fields of quantum information and computation. 2. Active scientific research. 3. Presenting results at workshops and conferences.

	4. Involvement in group activities (seminars, group meetings, etc.).
Profile of candidates/requirements:	<ol style="list-style-type: none"> 1. Having a status of a PhD student on the starting date (successful applicants will be obliged to enrol as a PhD student at the Doctoral School of the Jagiellonian University, which will require separate recruitment process that we can assist with). 2. Good knowledge of the following subjects: <ul style="list-style-type: none"> • Quantum physics, • Statistical physics, • Quantum information. 3. Strong mathematical background. 4. Proven research record (publications, talks) will be an additional benefit. 5. Good spoken and written English.
Required documents:	<ol style="list-style-type: none"> 1. Curriculum vitae. 2. Short personal statement describing research interests and reasons to apply (max. 1 page). 3. An electronic copy or a link to a Master thesis. 4. Declaration confirming the participation in PhD studies at the starting date. 5. Names and contact details (e-mail addresses) of at least one senior researcher who may provide references for the candidate. The candidate is expected to contact the referees and ask them to email reference letters to jobs@quantum-resources.com (the letters must be sent before the deadline).
We offer:	<ol style="list-style-type: none"> 1. Full time employment for up to 43 months with negotiable starting date (but not later than 1st of February 2020) and a fixed ending date (30th of June 2023). 2. Scholarship: 3800 PLN/900 EUR per month (untaxed). 3. Additional development fund (for conference fees, travel, summer schools etc.): 3800 PLN/900 EUR per month. 4. Basic equipment and core facilities. 5. Scientific and organisational support.
Please submit the following documents to:	jobs@quantum-resources.com
Application deadline:	08 November 2019
For more details about the position please visit (website/webpage address):	http://kamilkorzekwa.com/group/research_agenda.pdf
Euraxess job/stipend offer (in case of PhD, postdoc, leader and young leader positions):	https://euraxess.ec.europa.eu/jobs/451891

Due to the entry into force of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016, we also require that your job advertisements include a clause requesting the candidate's consent to the processing of his or her personal data by the institution which carries out the recruitment process.
