

Call for PhD student

Applications are invited for a PhD candidate at the Faculty of Physics, Astronomy and Applied Computer Science of Jagiellonian University, Krakow, Poland. This position is funded by the Polish National Science Center project "Cosmological Implications of Theories beyond Standard Model in light of Gravitational Waves Astronomy".

The successful candidate is expected to work with Dr. Chunshan Lin on the topics of theoretical cosmology, gravity theories, gravitational waves physics and so on. The Ph.D. is typically 4 years (4000 PLN/month). Applicants must hold a [M.Sc.](#) degree or Bachelor degree in Physics by the time the appointment starts. Applicants are requested to submit the following materials:

- (1) CV;
- (2) research statement;
- (3) list of publications (if applicable);
- (4) at least 2 recommendation letters;
- (5) transcript of undergraduate study and graduate study (optional);
- (6) a signed declaration of personal data processing, the file is available at <http://chaos.if.uj.edu.pl/~sacha/Declaration.docx>

All materials have to be sent directly to:

chunshan.lin@fuw.edu.pl

by 15th April, 2020.
