

Call for post-doc position

Applications are invited for a postdoctoral position in gravity and theoretical cosmology at the Faculty of Physics, Astronomy and Applied Computer Science of Jagiellonian University, Krakow, Poland, to work in the project "Cosmological Implications of Theories beyond Standard Model in light of Gravitational Waves Astronomy", funded by the Polish National Science Center (NCN).

We seek candidates with research experience in cosmology, modified gravity, and high energy physics. The candidate has to have a PhD degree by the time the appointment starts. The appointment is for 2 years, offers a competitive salary (in Polish local standard). The starting date of the appointment is 1st Sep 2020. The successful applicant is expected to work on the NCN project related topics, including gravitational waves, physics of early universe, modified gravity and so on.

To receive full consideration, applicants should submit the following materials:

- (1) CV
- (2) Research statement, including past achievement, and future research plan;
- (3) list of publications;
- (4) at least 3 recommendation letters. The letters should be treated as confidential;
- (5) TBA

All materials have to be sent directly to chunshan.lin@uj.edu.pl by 16th May, 2020.
