

Project: ***Principles of information decoding in developmental systems***

Principal investigator: Dr Marcin Zagórski

Job opening:

- **Assistant researcher** (full-time employment)

The candidates are required to have:

- MSc in physics, mathematics, computer science or similar.
- Interest in the interdisciplinary aspect of the project.
- Experience with numerical solvers (C++, Python, or Mathematica).
- Good communication skills.

We offer work in the thriving interdisciplinary environment at the interface of physics and biology. The project is done jointly with experimental labs (Austria, UK). Research visits in foreign institutions and participation in international conferences are planned.

Project description, job details, formal requirements, and the list of application documents can be found at <http://zagorskigroup.com/open-positions/>. Deadline: **28 June 2020**.

Project: ***Regulatory mechanisms for reproducible neural pattern specification in the developing spinal cord***

Principal investigator: Dr Marcin Zagórski

Job opening:

- **Scholarship for PhD student**

The candidates should fulfill requirements for the research assistant position + successfully apply to a Doctoral School in Poland. Visit <https://science.phd.uj.edu.pl/> for more information about PhD programs available at the Jagiellonian University.

Project description, job details, formal requirements, and the list of application documents can be found at <http://zagorskigroup.com/open-positions/>. Deadline: **16 Sep 2020**.
